3. When you think about these indicators do you tend to think at a national, church, family, or individual level first? Why?
4. Why is it hard to recognize the indicators of spiritual decline?
5. Do you see any of these 4 indicators of spiritual decline at either a national, church, family, or individual level? How so?
6. Why is recognizing these indicators not sufficient to get rid of them? Why is faith produced repentance the only effective means of doing so?
